Plant Health Diagnosis Report

Date: February 09, 2026 at 02:48 PM

Confidence: High

Overall Health Status

Excellent Health

Patient: Peace Lily

Severity: [] **Healthy**

Diagnosis Confidence: High

Verdict

Your Peace Lily is healthy and thriving. Maintain your current care routine.

Prognosis: Continue current care routine. Your plant is well-maintained.

Recommended Maintenance

Keep your plant thriving with these tips

- Water when top inch of soil is dry
- Maintain humidity around 50%
- Wipe leaves monthly

Seasonal Care (Spring)

Spring is the ideal growing season for Peace Lilies.

Expert Tip

Place away from direct sunlight to prevent leaf burn.

Follow-Up Recommendation

Your plant is healthy! Recommended next scan: 2-4 weeks, or if you notice any changes in leaf color, texture, or growth patterns.
